Address:	Authorizer Name print:		
PO #:	Authorizer Signature:		
<p><b>IMPORTANT NOTICE: Sample(s) received with an incomplete, incorrect, or altered Chain of Custody form will be automatically placed in Quarantine and not tested until an acceptable Chain of Custody is received.</b> Samples received without indication of "GMP" analysis will be considered "non-GMP" by default and reported as such; GMP testing is only available for qualified/ validated methods as designated by Daane Labs. Daane Labs is not responsible for sampling. Customer provides all information for Sample ID, Lot Number, GMP, Test Selection, and Specifications fields. Customer agrees Daane Labs is not responsible for and may immediately dispose of any samples having an illegal or otherwise undeclared controlled substance present in the given sample matrix. Standard Terms &amp; Conditions apply to all samples and requests.</p>			
Lab ID# <small>Daane Labs use only</small>	Sample ID and/or Description <small>One sample per row</small>	Lot Number	GMP: (Yes/No) <small>Presumed "No" if blank</small>
<b>Special Instructions:</b>			
<b>Test Selection / Method Reference / Turnaround Time</b>		<b>Specifications</b>	<b>Units</b>
<i>Applies to all samples on this page. Turnaround Times are relative to when samples are able to be processed by the lab, and not when samples arrive at the lab. Daane Labs cuts off sample receipt at 2:00 pm for analytical and reporting purposes. Rush processing is available for an additional fee.</i>		maximum acceptable microbial activity and reported units (g, mL, or swab)	
Total Plate Count / AOAC 990.12 / 2 days			
Coliform / SMEWW 9223 / 1day			
Escherichia coli / SMEWW 9223 / 1 day			
Total Yeast & Mold Count / AOAC 2014.05 / 2-3 days
